Commissioners' Report

1974 - 1975

LITTLE BOAR'S HEAD DISTRICT was 70 years old this year, and your Commissioners believe we have had another generally successful year of operation. We were plagued this past year by a series of problems not unlike some we have experienced in the past. These were (1) vandalism, (2) parking, (3) mosquitoes, (4) seaweed, and (5) dogs. Some of these are a product of the times we live in, some are acts of nature. Let us tell you what we did about these, and about other matters.

1. Vandalism. This seems to go in waves or cycles. Last year our problem was street lights. As soon as we would get them repaired they would be broken again. The breaks were vicious—a group would stop, get out and batter down the light fixture—and then drive off. Many homes in the District suffered damage—gate lights broken, garage lights torn off, mail boxes knocked down, etc. But since July this seems to have ceased.

2. Parking. There is a traffic counting device located on Ocean Boulevard opposite the Sullivans' house. On an average day in June it registered 5432 cars passing - on an average Sunday, 8169. These figures are up 5.6% from last year. It is no wonder we have a traffic and parking problem. Many of our residents have expressed concern over this problem, and Mr. Forsberg chaired a committee appointed at the last Precinct Meeting to look into it. He was successful in getting a number of streets in the immediate beach area posted with "No Parking" signs. The mechanics of the beach situation are as follows:

(b) The State owns the beach up to the mean high water mark.

(b) The State has a right-of-way over the area occupied by the granite breakwater and the State highway.

(c) The State, however, does not contribute to the policing of the area, or to the hiring of lifeguards, or to picking up trash. The State, in the past, has been approached on these matters with no success.

3. Mosquitoes. They were particularly bad earlier in the summer, and your Commissioners authorized a spray on July 28th. This was made up of a 6% solution of Methoxychlor and Tyrethrin, (both of which are approved by the New Hampshire Pesticide Control Board. Whether it was the material or the meticulous manner in which the spray was applied we do not know, but we felt that spray was particularly effective. We plan to spray two or three times next summer using both larvicides and later adulticides. The Towns of Hampton, North Hampton, and the Village District of Little Boar's Head are cooperating in underwriting a mosquito survey undertaken by a group of entomologists from the University of New Hampshire. The results are not known as yet but when they are we shall publish them. What this survey is trying to determine is the type and extent of mosquitoes present in the area, their usual breeding grounds, and some indication of an effective course of action.

4. Seaweed. This came in heavily after a storm we had in July, and there was some pressure on your Commissioners to have it removed. It lay in an area about 400' long by 180' wide and in places was six feet deep. It is conservatively estimated to weigh over 600 tons. The removal of this much material from the beach, together with its being trucked to an area for disposal, is beyond the financial resources of this Precinct. If it is not removed, the sea gradually takes most of it away. The rest, unfortunately, becomes buried under the sand where it rots and smells - which is the source, we feel, of most of the odor around the Fish Houses at times this summer. If there is any doubt about this we suggest one goes down at low tide by the Fish Houses and digs up some of the sand. One will then note the seaweed decomposing in it, as well as the odor.

5. Dogs. Your Commissioners, as well as the Selectmen of the towns, have had many complaints on this. As we advised earlier in a bulletin, there is a leash law in town that applies to the beach area. Dogs are not permitted to roam at will; and if you are bothered, please contact the Police. They will impound the dog, and if the owner is not located, other measures may be taken.

6. Fire House Surplus Material. There is an article in the Warrant this year authorizing your Commissioners to dispose of certain material still remaining in our Fire House. The two wooden ladders are in excellent shape, but unfortunately,

wooden ladders are not in demand at present because they are so heavy. The wheelbarrow is rather old. If the article passes, we will entertain sealed bids for these items. There is also a roll of hose on an antique hose reel with wheels. We would consider donating this to a firemen's group if one could be found that would care to maintain it.

7. Sidewalks. We have a legal responsibility to maintain the sidewalks, and this year, as in the past, have repaired them as we found necessary. Interestingly, we had three bids for the repair work, all for the identical 90 linear feet of sidewalk. These bids ranged from \$975 to \$510. All work was to be done in accordance with the same exacting specifications. Mr. Durham, a resident of the Village District, was the low bidder and was awarded the work.

8. Benches. You will notice two new benches placed along Ocean Boulevard next to the sidewalk. These were the gifts of Mr. and Mrs. Tedson Meyer, and are much appreciated. They replace wooden benches which were there in the past, but which had deteriorated.

9. Lifeguard. We feel we have been fortunate in having the services of Mr. Richard Crowley, who has been our lifeguard for four years now. He has made several rescues and has been on the job faithfully. His services, while under the Police Department, are jointly paid for by the Town and the Village District. Your Commissioners feel, however, that the crowds have grown to such an extent that two lifeguards are necessary over weekends, a matter which we shall take up with the Town.

The District Meeting will take place Tuesday, September 2, 1975 at Union Chapel on Willow Avenue at 8:00 in the evening. We welcome property owners as well as voters at that meeting and as always will be glad to hear the comments of our residents.
